

CARE ADVICE WOVEN RUGS

CARE ADVICE WOVEN RUGS

All rugs retain their appearance and shape for longer if you remove dirt and stains regularly. If you have a light, single-colour rug you will naturally need to clean it more often than a darker, patterned rug. Shaking or beating a rug can damage the warp, so we recommend that you vacuum and air your rug instead. It is also a good idea to use a rug underlay to prolong the life of your rug and prevent it from slipping on any type of floor.

VACUUM FREQUENTLY

Effective vacuuming is the easiest and most environmentally friendly cleaning method. It is also the most economical. When you vacuum regularly you remove all the loose dirt and dust.

ROTATE THE RUG

To get a more even exposure to sunlight and wear, we recommend that you rotate the rug regularly.

REMOVE STAINS

When it comes to removing stains or washing professionally, we recommend that you read our stain guide for advice. Feel free to contact us if you are unsure or have any questions: customerservice@kasthall.se
